

RESISTIVE PRODUCTS

Model MP Series

Precision Thin Film MP Resistor Divider Network

(SC70 package)

KEY BENEFITS

- Small size: SC70 package
- Tight resistance ratio tolerances: $\pm 0.05\%$
- Low TC tracking: ± 2 ppm
- Excellent long-term stability: 500 ppm at 70 °C for 2000 hours
- Schematic center-taped or isolated matched resistors
- 1 : 1 resistance ratio 1 K to 10 K standard offering
- Custom resistance ratios and resistance values available

APPLICATIONS

- Instrumentation amplifiers
- Precision voltage dividers
- Measurement bridge circuitry
- Low-noise instrumentation
- Converter applications
- OP amp gain control
