| Configuration | Single | | | | |

FEATURES

- Dynamic dV/dt rating
- · Repetitive avalanche rated
- · For automatic insertion
- End stackable
- P-channel
- · Fast switching
- 175 °C operating temperature
- Material categorization: for definitions of compliance please see www.vishav.com/doc?99912

DESCRIPTION

Third generation power MOSFETs from Vishay provide the designer with the best combination of fast switching, ruggedized device design, low on-resistance and cost-effectiveness.

The 4 pin DIP package is a low cost machine-insertable case style which can be stacked in multiple combinations on standard 0.1" pin centers. The dual drain servers as a thermal link to the mounting surface for power dissipation levels up to 1 W.
