

Magnetics

Industrial Control Solutions

The DNA of tech.™

Vishay is a leader in providing solutions for power management and filtering components. We develop magnetics for high-current applications incorporating specialized cooling requirements, including direct cold plate mounting solutions. Our designs provide an optimized solution for quality, cost, and system performance.

Applications

- Voltage isolation
- Current sensing
- Signal filtering
- Control systems

Approvals

- ISO9001:2015

Custom Design Request Forms

Inductor form:

Standard Products

- Transformers
- Inductors
- Common mode chokes

Manufacturing Excellence

Vishay custom magnetics offers a global manufacturing footprint that is certified to the highest quality, safety and environmental standards.
