

ROHS Compliance Statement
Directives 2002/95/EG, 2011/65/EU, 2015/863/EU
(RoHS I – III)

1st January, 2023

Dear Valued Customer,

Vishay Intertechnology Inc. is committed to be in compliance with all applicable global laws, directives and regulations.

Unless otherwise specified, Vishay Intertechnology Inc. hereby certifies that all its products that are identified as RoHS compliant fulfill the definitions and restrictions defined among the above listed directives of the European Parliament on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Vishay Intertechnology Inc. is aware that the RoHS exemptions that currently apply to some of our products are in the extension phase, which is still ongoing, as of July 21st, 2021. Currently, the report of the EU-consultant (Oeko) has been published, which is not yet the final decision of the EU Commission. The EU's consultations with the industry are scheduled to take place before the end of 2022. Together with partners from the industry, we will decisively oppose several recommendations of the EU consultants during these consultations. We are still actively searching for alternatives and are scrutinizing viable (performance, quality and costs) options.

Currently concerned exemptions as per Annex II, 2011/65/EU are 6 a, b, c, 7 a, 7 c(I) and 7 c(II).

Please mail your request to VPECM.Surveys@Vishay.com for specific products RoHS compliance reports.

A handwritten signature in blue ink, appearing to read "Jeff Webster", is positioned above the printed name.
