

EDLC

CUSTOMER INFORMATION:

Customer name	
Customer contact	
Email	
Preferred products	
Current solution	
Sales contact	

MECHANICAL REQUIREMENTS:

Length (mm)		Assembly form	
Width (mm)		Quality information	
Height (mm)		Safety approvals	
		Mechanical stress expectation	

CHARGE AND DISCHARGE CONDITIONS:

Min. charge voltage (V)		Describe usage: continuous operation (cycling?); or single event?	
Max. charge voltage (V)		Peak current	
Charge / discharge: CC (A) or CP (W)		Minimum needed backup time or energy	

Existing balancing solution: e.g.: is there a preferred configuration?

LIFETIME REQUIREMENTS:

Either add a temperature profile; or the highest temperature at the product and operation time.

Temperature profile						
Temperature (°C)						
Application time spent (%)						
Comments						
Is humidity exposure expected?						
Lifetime expectation
