Space Grade Planar Transformers With Multiple Output Secondaries for 150 W / 28 V Input Forward Converters

LINKS TO ADDITIONAL RESOURCES

Product Page

APPLICATIONS

- High reliability Space Grade switch mode power supplies
- 28 V primary input voltage forward converters
- Active clamp or dual switch forward converters up to 150 W

FEATURES

- Input voltage range: 18 V to 36 V
- Multiple secondaries can power up to two 12 V channels or up to four 5 V channels with center tap
- Higher power density levels versus traditional planar designs
- Optimized for 150 W forward converter topologies using 28 V input and 200 kHz operation
- Over-molded windings for environmental protection in ruggedized applications
- MIL-PRF-27 grade 5, product level T, temperature class S
- MIL-STD-981 family 03 power transformer, class S compliant (1)(2)
- ASTM-E595 outgassing compliant (3)
- Tin-lead (Sn63Pb37) coated terminations (does not contain tin composition percentages greater than 97 %)
- Customization available (e.g., pinouts, temperature class, screening, etc.)
- SGTPL design; PATENT(S): www.vishay.com/patents

Notes

(1) Screening codes S and B only

(2) Clarifications to MIL-STD-981 (1):

a. MIL-STD-981 figures 3b, c, and d do not apply to this assembly's build construction

b. MIL-STD-981 5.5.10 & 5.5.11: parts soldered and inspected to J-STD-001S (space addendum)

c. Corona discharge is not applicable

(3) Applies to all external materials

ABSOLUTE MAXIMUM RATINGS

PARAMETER	CONDITIONS	LIMITS	UNITS
Dielectric withstand voltage (DWV) (1)	Primary to secondary, windings to core	1250	V_{DC}
	Primary to primary, secondary to secondary	500	V_{DC}
Insulation resistance (2)	Windings to windings and core, 10 GΩ min.	500	V_{DC}
Power		150	W
Operating temperature	Continuous	-55 to +130	°C
Storage temperature	Continuous	-65 to +155	°C
Frequency		100 to 500	kHz

Notes

(1) Test conditions adjusted per MIL-STD-981 and MIL-PRF-27 4.7.9.1 during group A and B testing; tested at equivalent DC test voltage

(2) Test conditions adjusted per MIL-STD-981 and MIL-PRF-27 4.7.11 during group A and B testing

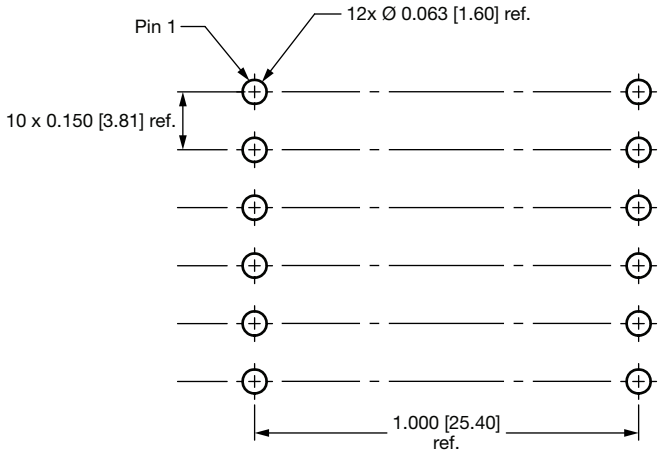
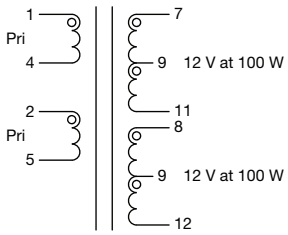
TYPICAL BOARD PIN LAYOUT

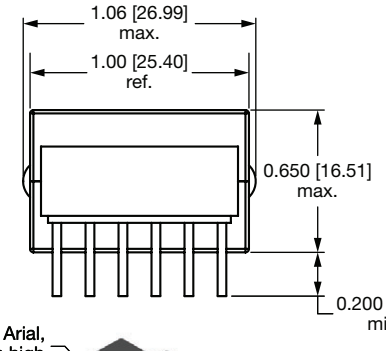


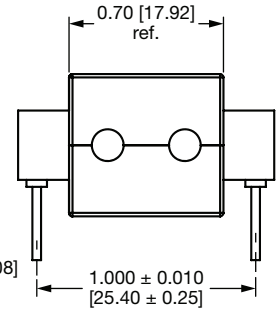
DIMENSIONS in inches [millimeters]

SGTPL2516T02812x

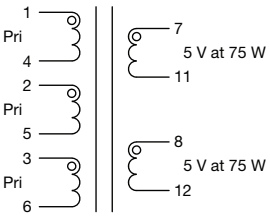


Primary pins 1, 2 and 4, 5
should be tied for proper operation

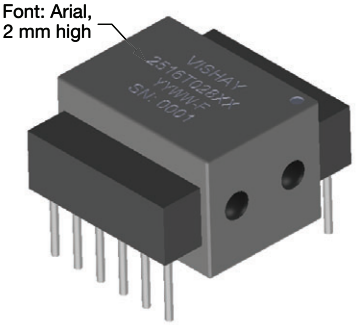


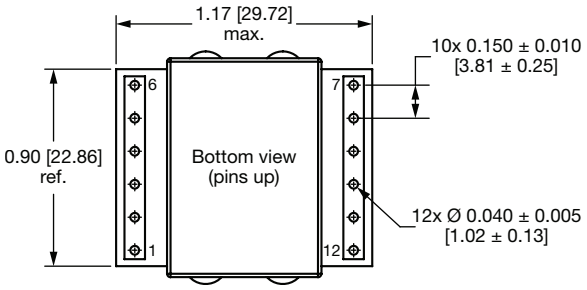


SGTPL2516T02805x



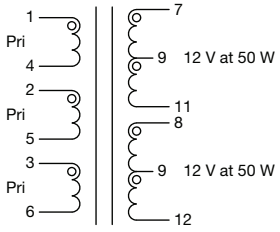
Primary pins 1, 2, 3 and 4, 5, 6
should be tied for proper operation



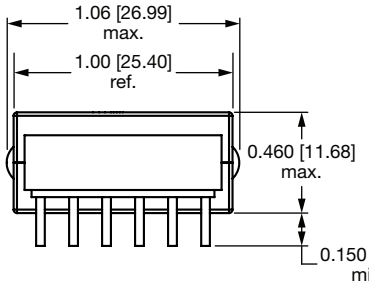


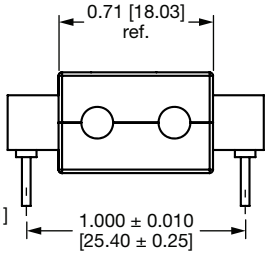
Maximum weight of 40 grams

SGTPL2511T02812x

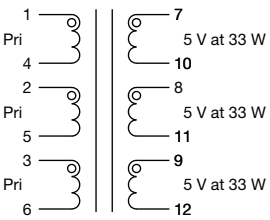


Primary pins 1, 2, 3 and 4, 5, 6
should be tied for proper operation

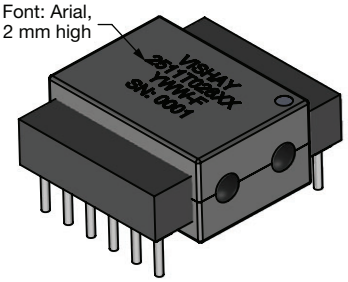


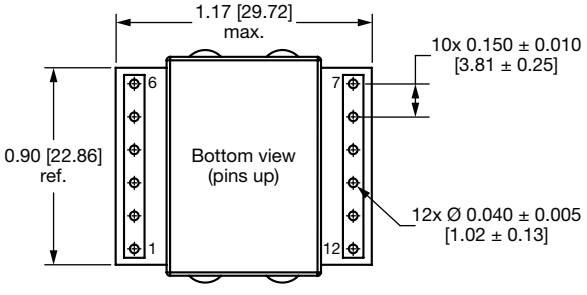


SGTPL2511T02805x



Primary pins 1, 2, 3 and 4, 5, 6
should be tied for proper operation





Maximum weight of 28 grams

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, “Vishay”), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Hyperlinks included in this datasheet may direct users to third-party websites. These links are provided as a convenience and for informational purposes only. Inclusion of these hyperlinks does not constitute an endorsement or an approval by Vishay of any of the products, services or opinions of the corporation, organization or individual associated with the third-party website. Vishay disclaims any and all liability and bears no responsibility for the accuracy, legality or content of the third-party website or for that of subsequent links.

Vishay products are not designed for use in life-saving or life-sustaining applications or any application in which the failure of the Vishay product could result in personal injury or death unless specifically qualified in writing by Vishay. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
