

CAPABILITIES AND CUSTOM OPTIONS

LVAC POWER CAPACITORS

Application	Advantage
Wind turbines, solar inverters, power factor correction	• Resistance to shock and vibration (eg. IEC 60068-2-6)
	• Maintenance-free
	• Corrosion-proof
	• Over-pressure tear-off fuse
	• Reduced assembly times up to 60%
	• Self-healing technology
	• UL and cUL approved

ESTAspring

SPECIALTY DEVICES

Design Issue	Application	Series
Vibration	Wind turbines	PhMKP series with ESTAspring terminal
Environmentally friendly / space constraints	Power factor correction / wind turbines	

CUSTOMIZATION

Options
Screw or spring-loaded terminals
Flexible design options (height and diameter)
Form: tubular, triangular, and rectangular
Electrical parameters
Outdoor applications
