

The DNA of tech.™

CAPABILITIES AND CUSTOM OPTIONS

POWER ELECTRONIC CAPACITORS

| Main Application | Advantage |
|---|---|
| <ul style="list-style-type: none"> • DC-Link capacitor for HVDC light / STATCOM • DC-Link for industrial converters • High voltage testing systems | <ul style="list-style-type: none"> • Custom design • Design in accordance to IEC 61071 • High reliability and life expectation • High current ratings • Low inductance |
| <ul style="list-style-type: none"> • DC-Link and DC filter for traction converters | <ul style="list-style-type: none"> • Custom design • Design in accordance to IEC 61881 • High reliability and life expectation • Shock and vibration resistant |

SPECIALTY DEVICES

| Design Advantage | Application | Series |
|------------------------------|--------------|---|
| Low inductance | Traction | HDMKP  |
| Space-saving, compact design | Power supply | GLI  |
| High impulse capability | Welding | DCMKP  |

CUSTOM OPTIONS

| Capabilities |
|----------------------------------|
| Connections - inserts or bolts |
| Form - length, width, and height |
| Electrical parameters |
