33 mm x 44 mm x 20 mm		

### FEATURES

• Absolute ratiometric output over 360° range with no dead band

COMPLIANT

- Self-contained package not requiring external electronic interface
- Contactless technology
- Reverse polarity protection
- Non volatile positioning output
- Material categorization: For definitions of compliance please see <u>www.vishay.com/doc?99912</u>

The model 601-HE represents a new generation of smart sensors in contactless technology based on the hall effect principle. This unique electronic device is a self-contained package which provides an analog electrical output over a full 360° without the need of external electronics. The low power consumption and non-volatile output makes this universal sensor the real cost-effective alternative to encoders.
