Vishay Semiconductors

# **Fast Avalanche Sinterglass Diode**

#### **FEATURES**

- Glass passivated junction
- · Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

**HALOGEN** FREE

### **DESIGN SUPPORT TOOLS**

### **MECHANICAL DATA**

Case: SOD-64

Terminals: plated axial leads, solderable per MIL-STD-750,

method 2026

Polarity: color band denotes cathode end

Mounting position: any Weight: approx. 858 mg

- · Hermetically sealed package
- · Low reverse current
- · Soft recovery characteristics

#### **APPLICATIONS**

· Very fast rectification and switching diode

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
