Vishay Extends Ratings for T34 Series HI-TMP® High Performance Wet Tantalum Capacitors

Vishay’s tantalum capacitors division is pleased to announce extensive new ratings for its T34 series of HI-TMP® high performance axial-leaded, hermetically sealed wet tantalum capacitors. Combining high temperature performance with high capacitance, the devices are designed for petroleum applications offering high resistance to shock and vibration wherever they are used.

Part Number	Product Description	Cap (µF)	Voltage (V)	Size
T34C337M075AZ6S	T34 High Temp Wet	330	75	C
T34D477M075AZ6S	T34 High Temp Wet	470	75	D
T34A156M100AZ6S	T34 High Temp Wet	15	100	A
T34D227M100AZ6S	T34 High Temp Wet	220	100	D
T34D407M100AZ6S	T34 High Temp Wet	400	100	D
T34D477M100AZ6S	T34 High Temp Wet	470	100	D
T34D757M100AZ6S	T34 High Temp Wet	750	100	D
T34D157M125AZ6S	T34 High Temp Wet	150	125	D
T34D247M125AZ6S	T34 High Temp Wet	240	125	D
